Re: Hub Non-Permitted Well Prep Activities at JISH

As you may know, we have recently submitted applications to state and federal regulatory agencies to expand our capacity at Jefferson Island Storage and Hub. These permits are still under review. To enable us to proceed efficiently should we obtain the permits for drilling we are doing some preliminary work at our property. We will not drill any wells until we have authorization from the state and federal authorities with oversight of this project.

If you would like additional information about Jefferson Island Storage and Hub and the proposed expansion, please call Roland Young at 866-228-6721. Or visit our website at www.aglresources.com/jish.
